React, Docker, Firebase, Handlebars, Jenkins, JDK, Selenium, Maven,  
Google Cloud Virtual Machines  
Virtual Machines (Digital Ocean)

**DIGITAL PROJECT EXPERIENCE**

**[PORTFOLIO](#)** - *This portfolio link connects to WEBSITE detailing projects identified below.*

**FOOD SEARCHER**

- **Role:** Developed the client-side JavaScript code; built HTML code structure, created and tested AJAX calls, and used Regex technology for field entry validation
- **Application Functionality:** This application returns nutritional values of meals, and calculates the length of time it takes to burn those calories
- **Technology:** jQuery, JavaScript, Google Maps JS API, HTML, CSS, RESTful APIs, Regex, Materialize

**GOOGLE PROMO**

- **Role:** Created a client side only advertisement with animations
- **Application Functionality:** This application uses UI design best practices
- **Technology:** JavaScript (Animation), HTML, CSS, Bootstrap3

**SIGN-UP LANDING PAGE**

- **Role:** Designed and developed a landing page concept site with nifty animation
- **Application Functionality:** This is a non-functional, and basic, landing page that I created on a whim to tryout an animation idea for bubbles. I ended up liking it enough to add it here. I hope that you like it as well.
- **Technology:** HTML, CSS(Styling & Animations)

## **PROFESSIONAL WORK HISTORY**

### **Freelance Web Development SEO/Social Media Marketing**

#### ***Contract, Self-Employed, Georgia & Remotely***

Currently under contract to complete a stylish, user friendly, search engine optimized and scalable full-stack website for an Atlanta based home remodeling business.

- Employing project architecture using Express, Node, and Node Mailer for the email contact.
- Delivering logo design, deployment, a custom domain, and email contact services for potential client leads.

### **Senior Dental Lab Technician**
