**DIGITAL PROJECT EXPERIENCE**

**PORTFOLIO** - *This portfolio link connects to my WEBSITE displaying projects identified below.*

**ECOMMERCE FRONT-END**

- **Role:** Developed the client-side eCommerce clothing storefront
- **Application Functionality:** This application is semi functional with one product detailed view, and a pre-filled shopping cart
- **Technology:** HTML, CSS, CSS Animations

**FOOD SEARCHER**

- **Role:** Developed the client-side JavaScript code; built HTML code structure, created and tested AJAX calls, and used Regex technology for field entry validation
- **Application Functionality:** This application returns nutritional values of meals, and calculates the length of time it takes to burn those calories
- **Technology:** jQuery, JavaScript, Google Maps JS API, HTML, CSS, RESTful APIs, Regex, Materialize

**GYM LANDING PAGE**

- **Role:** Designed and developed a landing page concept site with background animation
- **Application Functionality:** This is a non-functional, and basic, landing page that I created on a whim to create a background animation. This is hands down my favorite.
- **Technology:** HTML, CSS(Styling & Animations)
