

Bernard Major

TITLES: **SOFTWARE ENGINEER II** | **CERTIFIED SCRUM MASTER**

LOCATION: *Lawrenceville, GA*

Seeking a challenging role to utilize technical experience, engineering principles, and Agile methodologies for the benefit of clients and employers as an innovative, and collaborative problem-solver in the digital marketplace.

EXPERIENCE

Saia LTL Freight - Johns Creek, GA

Full Stack Developer & Mobile App Developer/Release Coordinator
November 2020 to March 2023

- Led production support for driver mobile apps to ensure seamless functionality.
- Orchestrated the architectural design and provisioning of Azure resources for linkex.us.
- Problem solved backend (Node.js) API microservices, utilizing PM2 for efficient management.
- Engineered and deployed numerous production updates for both mobile and web apps.
- Developed a PHP shipping rate quote plugin for WordPress, enhancing website capabilities.
- Co-developed UI/UX features for the Linehaul driver mobile app.
- Collaborated and implemented Saia One Click Okta SSO for streamlined access.
- Pioneered the implementation of SCRUM methodology standards using Azure DevOps.
- Successfully managed multiple projects throughout their SDLC, collaborating with offshore talent partners.
- Led the development and deployment of business-critical, on-prem websites to Azure cloud hosting.
- Achieved company-wide implementation of Okta SSO, revolutionizing access to managed applications.

Major Media Group LLC - Lawrenceville, GA

Freelance Web Developer/Social Media Marketing
January 2020 to CURRENT

- Engineered user-friendly and scalable full-stack websites, driving business growth for small enterprises.
- Architected and provisioned full-stack infrastructure to enhance website performance.
- Achieved impactful results through logo design, efficient deployments, custom domains, and click-funnel lead generation.

3Sixty Dental formerly 360 Imaging LLC - Atlanta, GA

Senior Dental Lab Technician/Project Manager
January 2016 to November 2020

- Optimized laboratory workflow, resulting in a significant reduction in production material costs.
- Oversaw manufacturing and quality assurance for printed surgical guides, ensuring adherence to industry standards.
- Executed product photography, managed Instagram content, and conducted rigorous testing of proprietary software GUI.
- Elevated the overall quality of 360's surgical guides through strategic improvements.
- Collaborated in the production and laboratory testing of the revolutionary and patented Anatomical Guide™, contributing to its successful development.
