

Bernard Major

TITLES: **SOFTWARE ENGINEER II** | **CERTIFIED SCRUM MASTER**

LOCATION: *Lawrenceville, GA*

Seeking a challenging role to utilize technical experience, engineering principles, and Agile methodologies for the benefit of clients and employers as an innovative, and collaborative problem-solver in the digital marketplace.

EXPERIENCE

Saia LTL Freight - Johns Creek, GA

Full Stack Developer & Mobile App Developer/Release Coordinator
November 2020 to March 2023

- Oversaw Production Support and Updates:
- Ensured seamless functioning of driver mobile apps, demonstrating attention to detail.
 - Designed, developed, and deployed updates for mobile and web apps for client and API microservices, meeting strict project deadlines.
- Managed SCRUM Methodology and Project Life Cycle:
- Implemented SCRUM methodology using Azure DevOps, emphasizing adherence to procedures.
 - Individually established and directed cross-functional, organizational, and offshore teams release coordination protocols for both monolithic and microservice architecture projects.
 - Successfully managed multiple projects through their Software Development Life Cycle (SDLC), showcasing project management skills.

Major Media Group LLC - Lawrenceville, GA

Freelance Web Developer/Social Media Marketing
January 2020 to CURRENT

- Developed Scalable Websites:
- Built user-friendly and scalable full-stack websites for businesses, focusing on user experience.
- Comprehensive Design and Deployment:
- Designed and provisioned full-stack architecture, ensuring a holistic approach to web development.
 - Logo design, custom domains, click-funnels, digital banner ads, and social media marketing.

3Sixty Dental formerly 360 Imaging LLC - Atlanta, GA

Senior Dental Lab Technician/Project Manager
January 2016 to November 2020

- Managed Lab Workflow and Reduced Costs:
- Successfully managed laboratory workflow, emphasizing efficiency and cost reduction.
- Expertise in Dental/Micro Lab Tech Skills:
- Applied flux welding and welding repairs, showcasing proficiency in specialized dental lab techniques.
 - Engaged in small device manufacture and assembly using hand tools for polishing and cutting, demonstrating precision in manual assembly.
 - Elevated the overall quality of 360's surgical guides through strategic improvements.
 - Collaborated in the production and laboratory testing of the revolutionary and patented Anatomical Guide™, contributing to its successful development.
