Google Cloud Virtual Machines
Virtual Machines (Digital Ocean)

DIGITAL PROJECT EXPERIENCE

[PORTFOLIO](#) - *This portfolio link connects to my WEBSITE displaying projects identified below.*

ECOMMERCE FRONT-END

- **Role:** Developed the client-side eCommerce clothing storefront
- **Application Functionality:** This application is semi functional with one product detailed view, and a pre-filled shopping cart
- **Technology:** HTML, CSS, CSS Animations

FOOD SEARCHER

- **Role:** Developed the client-side JavaScript code; built HTML code structure, created and tested AJAX calls, and used Regex technology for field entry validation
- **Application Functionality:** This application returns nutritional values of meals, and calculates the length of time it takes to burn those calories
- **Technology:** jQuery, JavaScript, Google Maps JS API, HTML, CSS, RESTful APIs, Regex, Materialize

GYM LANDING PAGE

- **Role:** Designed and developed a landing page concept site with background animation
- **Application Functionality:** This is a non-functional, and basic, landing page that I created on a whim to create a background animation. This is hands down my favorite.
- **Technology:** HTML, CSS(Styling & Animations)

PROFESSIONAL WORK HISTORY
