## DIGITAL PROJECT EXPERIENCE

**PORTFOLIO** - *This portfolio link connects to my WEBSITE displaying projects identified below.*

### ECOMMERCE FRONT-END

- **Role:** Developed the client-side eCommerce clothing storefront

- **Application Functionality:** This application is semi functional with one product detailed view, and a pre-filled shopping cart

- **Technology:** HTML, CSS, CSS Animations

### FOOD SEARCHER

- **Role:** Developed the client-side JavaScript code; built HTML code structure, created and tested AJAX calls, and used Regex technology for field entry validation

- **Application Functionality:** This application returns nutritional values of meals, and calculates the length of time it takes to burn those calories

- **Technology:** jQuery, JavaScript, Google Maps JS API, HTML, CSS, RESTful APIs, Regex, Materialize

### GYM LANDING PAGE

- **Role:** Designed and developed a landing page concept site with background animation

- **Application Functionality:** This is a non-functional, and basic, landing page that I created on a whim to create a background animation. This is hands down my favorite.

- **Technology:** HTML, CSS(Styling & Animations)
